Dear Partners

Launch of Birmingham Safeguarding Adults Board's
Protocol for responding to concerns
about a person in a position of trust (PiPoT)

Please see attached Birmingham Safeguarding Adults Board’s Protocol for responding to concerns about a Person In a Position of Trust (PiPot).

This Protocol applies to all partner agencies of Birmingham Safeguarding Adults Board (BSAB), and organisations commissioned to provide services by them, so they respond appropriately to allegations of abuse or neglect against people who, whether an employee, volunteer or student, paid or unpaid, works with or cares for adults with care and support needs. Having such arrangements in place is not only a requirement of the Care Act 2014, but also a key action arising from the Board’s Serious Case Review into the death of A3.

Please will you ensure that the necessary arrangements are put in place so that your organisation complies with this Protocol and is able to provide assurance of this to the Board.

Yours sincerely
